

VANESSA

Vanessa Vasquez has spent the last ten years developing her skills as a cosmetologist, makeup artist and hairstylist, all the while being extremely passionate about excellent customer satisfaction. She graduated from Cosmetology School in Texas and found her way to Arizona, which is now the place she calls home.

Two years ago, Pooja & Vanessa met at a Runway Show for Michael Costello; it was then that they realized that they had the same vision, passion, and excitement to go beyond just "looking beautiful" but rather "feeling beautiful" - this is the mission that Makiaj represents. Soon after Vanessa & Pooja worked closely together to perfect the vision of a modern bride:

A woman who appears effortlessly beautiful & confident in her own skin.

Vanessa feels the most inspiring environment that she has worked in has been Runway because of the incredible artistry and creativity that is executed under pressure in such a small amount of time. This has trained her to become intuitive about what her clients need and in turn, make her highly sought after in the wedding industry.

Whether she is working on a South Asian bride or Western bride, a fitness competitor, a supermodel or at a Photoshoot, she is extremely sensitive and attentive to creating the highest quality results.

Vanessa quickly rose to make her mark within the beauty industry. In April 2015, she had the honor of creating unique, artistic and beautiful hairstyles for Pooja's wedding events.
